

# NEOSAN LABS 01

## Disinfectant

Antibacterial, Virucide, Fungicide,  
Yeasicide, Mildewstat, Algaecide

### Meets requirements for hospital use.

NeoSan Labs 01 is an extremely effective, safe, and easy-to-use sanitizing cleaner for the highest cleaning standards.

Pursuing a high-impact, broad-spectrum response to hazardous contamination, pioneering scientists engineered the most powerful, nontoxic disinfectant ever created. Without using Formalin, Chlorine, Carboic Acid or heavy metals, NeoSan Labs 01 is proven to be non-mutagenic, non-carcinogenic, safe for humans, animals and plants. Its low corrosive qualities do not damage common surfaces, making it vastly versatile in application.

### We innovate, so you can excel.

- Easy to use
- No special equipment or training required
- Wide variety of applications
- Quick turn-around times
- Decreased operating costs
- Supportive global community

- Quick Operating Procedure With Fast Onset Of Action
- Detergent & Broad-Spectrum Disinfectant
- Use As A Liquid, Spray, Aerosol, Or Foam
- Kills 99.99999% Of Biological Agents
- Neutralizes Chemical Agents
- Eradicates Bacteria
- Reduces Staff Infection And Cross Contamination Risk
- Neutralizes Odors At The Molecular Level
- Lasting Antimicrobial Barrier
- Safe On All Industry Materials
- 10 Year Shelf Life

### NONTOXIC, NONFLAMMABLE, BIODEGRADABLE

*No residual effect on the environment  
Safe for humans, animals, and plants*

# NEOSAN LABS 01

## FOR COLD FOGGING OR SPRAYING

This product is specifically designed as a general cleaner and disinfectant for homes, hospitals, and commercial facilities. It is formulated to disinfect all industry materials. It deodorizes areas prone to odors caused by microorganisms without the use of fragrances or encapsulating agents.

**NEOSAN LABS 01** comes in two parts that are combined in equal amounts before application. The active ingredients in Part A compromises the outer layers of biological and chemical toxins, allowing the active ingredients in Part B to break them down into harmless components. The cleaning solution remains active for 8 hours, then resolves into 100% biodegradable components, leaving no toxins or hazardous waste behind. **NeoSan Labs produces the safest, most powerful, broad-spectrum disinfectant ever created.** So quick and easy to apply, it is widely considered the most cost-effective formulation on the market.

**HEALTHCARE** Hospital beds, wheelchairs, walking aids, lounge areas, ambulances, operating rooms, treatment rooms, storage, laundry rooms

**TRANSPORTATION** Trains, taxis, rental cars, buses, aircraft cabins, waiting areas, food courts, restrooms
