

## Safest, Most Effective Disinfectant Available

*Our nontoxic formulation has an unmatched level of effectiveness, destroying bacteria, viruses, and pathogens—including COVID-19.*

Developed by top government scientists as a nontoxic response to the most toxic problems, NeoSan Labs hospital-grade disinfectants are best in class. No product available is as effective and safe for humans, animals and plants.

“ Our school is focused on keeping students and staff safe from COVID-19. With over 500 products on the EPA List N that kill Coronavirus, developing a strategy can be challenging. We have peace of mind knowing the NeoSan Lab products are derived from research and development at U.S. government laboratories, and have been proven effective in the field.”

—Ricardo Mireles, Academia Avance Executive Director, Pasadena, CA

**Nontoxic. Noncorrosive. Biodegradable.**  
**Hydrogen Peroxide-Based Formulation**  
**Dye & Fragrance Free**

**Eliminates Irritants That Can Cause Asthma,  
Allergic Reactions, And Chemical Sensitivity**

**Exceeds ADA Requirements For Air Detoxification**

- 100% Safe & Environmentally Friendly
- Protect Students, Teachers, And Maintenance Staff
- All-In-One Cleaner, Deodorizer & Disinfectant
- Prevent The Spread Of Infectious Diseases
- Highest Kill Rate In The Industry
- Effective Within Minutes
- Eradicate Germs, Bacteria & Viruses Including COVID-19
- Prevent Infection & Cross-Contamination
- Create A Lasting Antimicrobial Barrier
- Safe On All Industrial Surfaces
- Neutralize Toxic Chemicals
- Noncorrosive Formula—Formalin, Chlorine, Carbolic Acid & Heavy Metal Free
